

GaiaXus

Water quality monitoring systems
for citizen science & education

Building the Future of Environmental STEM

We're excited to share that GaiaXus has been awarded a U.S. Department of Education SBIR Phase Ib contract. This support allows us to expand our platform with new AI-driven tools for environmental STEM education — while staying rooted in place-based learning and hands-on science. For us, the real excitement is what this means for teachers and students: more ways to connect classrooms, communities, and scientists.

If you are an educator or citizen scientist with a focus on education, we'd love to hear from you. We are setting up pilots to link schools, communities, and scientists in meaningful new ways.

Finding Balance Between Commerce and the Common Good

This September, GaiaXus was honored to be one of just ten ventures invited to the [RallySea Co-Creation](#) Lab in Orlando. It was an inspiring week of coaching, site visits, and deep conversations about how to balance sustainability with social impact while building strong businesses.

We are now setting up a new pilot program in central Florida, specifically integrating the needs of communities, educators and researchers around stormwater management. If you want to participate or know someone, please connect with us!

Where to Find Us

September has been a busy month — and October looks even fuller. We'll be on the road at events that bring together educators, entrepreneurs, and community scientists. If you'll be nearby, we'd love to connect in person.

- **Sept 27** — [Izaak Walton League, Rockville, MD](#) (*Hunting & Fishing Day*)
Water Guardians in the lake! Hands-on exhibit and nitrate testing
- **Sept 30** — [Virginia Water Monitoring Council](#), Hanover, VA
Exhibit and chlorophyll demonstration
- **Oct 7–9** — [mEducation Alliance, Arlington, VA](#)
Panel with Dr. Pascale Creek Pinner, exhibit, and hands-on water filtration lab (Grade 5-8)
- **Oct 20–22** — [startEd – EdTechWeek](#), New York, NY
Exhibit booth and demonstration of our NGSS-aligned engagement platform
- **Oct 21** — [TEDCO 2025 Entrepreneur Expo](#), College Park, MD
Exhibit with our partner [RPM Tech](#), focusing on U.S. manufacturing and

design

Interested in bringing GaiaXus to your event,
classroom, or community? We would love to hear from you!
